Area restaurants  
with water views.

(in case the big one got away)

# Fishing

Anglers will find plenty of opportunities around Gloucester. Bluefish and striped bass can be caught close to shore by surfcasting or fly fishing. Make sure your gear is up to the task; you'll need steel leader if it's bluefish you're after. Flounder can be caught from a pier or rock wall. Timing matters - change of tide is the best time for fishing. Deep sea fishing for cod, haddock, striped bass, shark & tuna will require a boat. There are several charter fishing boats in town that can get you on the water (see listings on page 8). Most will rent gear and even clean your fish for you. Bait, tackle, ice and fishing tips can all be found in downtown gear shops.

The Blynman Bridge aka "the Cut" that spans the Annisquam River is the busiest drawbridge on the east coast.

## Saltwater Fishing Permits

Plan to fish only from a charter boat? You do NOT need a license. Fishing from shore or on a private boat? See below for the most recent regulations.

**For 2010**, anglers must join the National Saltwater Angler Registry at:

[CountMyFish.NOAA.gov](http://CountMyFish.NOAA.gov). **Free**

**For 2011**, anglers must purchase a state Recreational Saltwater Permit at:

[Mass.gov/MarineFisheries](http://Mass.gov/MarineFisheries). **\$10**
